

Company Profile

Who is La Marmite?

La Marmite is a Corporation Registered in Manila, Philippines, created by Filipinos and French. This Filipino Company imports traditional appliances directly from Europe for Private Users and Professionals.

What is La Marmite in Philippines?

La Marmite is a French name and represent a cooking tool used every day, a casserole!

Before to import and to install cooking ranges in the Philippines, our company assist designers, architects and developers to customize the unit in accordance with the cooking style of the clients. For VIP clients, special orders with other sizes, colors, and other options are also possible.

Four Exclusive brands for Domestic and Professional Users

These 200 years-old French company sells high quality ranges in more than **35 countries**. Available in Classic or Modern line, from 700mm wide until 2300mm, in 24 colors, with various types of knobs. Design the top part with gas, induction, multi-cooker, plancha, grill, deep fryer as you need. Choose between gas and /or electric ovens, or a warming cabinet. With more than 50,000 different combinations, **each range is a unique model!**

For all projects, *La Marmite* Team prepares a specific datasheet with gas and electrical performances in accordance with selected options. Users training and cleaner tanning is done after the switch on. Spare parts are in stock in the Philippines.

It is also possible to complete the range with a matching hood in color and logo in accordance with the trims.

OpenCook

Now the summer cooking goes from home to the garden, with a new elegance and conviviality. Open'Cook's products come out at first rays of sun, just like sun loungers and sunshades. They settle like a made-to-measure kitchen combining the different cooking elements easily. Each cooking element is autonomous and in accordance with the Filipino electric and Gas standards.

For the Philippines, a special roller is produced. This one accepts the 13Kg Solane Gas Tank. The 4 large wheels are mounted to the roller for easy movement because the weather changes without warning, sometimes.

With Open'Cook, the kitchen can be installed where you want, how you want.

Are you a chef or a caterer, or do you form part of a small-sized institution? If so, **Ambassade de Bourgogne** has just the thing for you - a wide range of "made in France" cooking appliances, designed for professional use and with various capacities and power ratings.

Products are the result of many years of experience in designing and manufacturing cooking equipment for professional kitchens
